

Payoneer to Launch Stablecoin Capabilities, Powered by Bridge, Bringing Secure, Always-On Digital Money to Global Businesses

February 17, 2026

NEW YORK, Feb. 17, 2026 /PRNewswire/ -- [Payoneer](#) (NASDAQ: PAYO), the global financial technology company powering business growth across borders, today announced plans to launch a suite of stablecoin capabilities embedded within the Payoneer platform. Powered by Bridge, a leading stablecoin infrastructure platform and a Stripe company, these new capabilities will enable businesses to securely receive, hold, and send stablecoins as part of their day-to-day global financial operations.

Stablecoin adoption is accelerating, and real-world use cases are emerging, offering faster settlement and always-on, programmable money movement. However, for many cross-border businesses, especially those in emerging markets, practical integration and adoption remain challenging. Converting stablecoin into local currencies, managing fragmented workflows, navigating blockchain complexity, and operating within an evolving regulatory environment have constrained broader adoption.

Payoneer has partnered with Bridge to add complete, end-to-end stablecoin workflows directly embedded in the Payoneer platform. For example, a goods wholesaler will be able to receive customer payments in stablecoin, while a marketing agency will be able to use stablecoins to pay international suppliers or contractors. Funds can be held securely in stablecoins or withdrawn to a local bank account when needed, simplifying operations across different markets and currencies.

With nearly 2 million customers worldwide and deep compliance expertise built over decades, Payoneer is uniquely positioned to help businesses unlock the benefits that stablecoin can provide, all within a single financial stack that is purpose built to serve the needs of cross-border SMBs.

"No-friction money movement is essential for global business," said John Caplan, Chief Executive Officer of Payoneer. "In partnering with Bridge, we're bringing stablecoin into Payoneer's trusted financial stack in a way that prioritizes compliance, speed, security, and simplicity. This is about rethinking how money moves across borders for real businesses, not as an experiment, but as a scalable financial capability."

"Bridge was built to abstract away the hardest parts of blockchain infrastructure so companies like Payoneer can focus on building great financial experiences," said Zach Abrams, co-founder and CEO of Bridge. "Together, we're making stablecoins a practical and secure option for every day cross border money movement."

Payoneer will launch the new stablecoin capabilities embedded within the Payoneer platform in select markets in Q2 2026, with broader availability rolling out throughout the year as functionality and market availability expand. Companies can sign up to learn more and request early access to the stablecoin capabilities at <https://t.co/cLClQmb4Ll>.

About Payoneer

Payoneer is the financial platform for cross-border business and global payments. Payoneer empowers millions of businesses with the financial tools and services they need to grow and transact globally with confidence. We make it easier for SMBs, particularly in emerging markets, to connect to the global economy, pay and get paid across borders, manage their funds across multiple currencies, and grow their businesses.

Forward-Looking Statements

This press release includes, and oral statements made from time to time by representatives of Payoneer, may be considered "forward-looking statements" within the meaning of the "safe harbor" provisions of the United States Private Securities Litigation Reform Act of 1995. Forward-looking statements generally relate to future events or Payoneer's future financial or operating performance. In some cases, you can identify forward-looking statements by terminology such as "may," "should," "expect," "intend," "plan," "will," "estimate," "anticipate," "believe," "predict," "potential" or "continue," or the negatives of these terms or variations of them or similar terminology. Such forward-looking statements are subject to risks, uncertainties, and other factors which could cause actual results to differ materially from those expressed or implied by such forward-looking statements. These forward-looking statements are based upon estimates and assumptions that, while considered reasonable by Payoneer and its

management, as the case may be, are inherently uncertain. Factors that may cause actual results to differ materially from current expectations include, but are not limited to: (1) changes in applicable laws or regulations; (2) the possibility that Payoneer may be adversely affected by geopolitical events and conflicts, such as Israel's conflicts in the Middle East, and other economic, business and/or competitive factors, such as changes in global trade policies (including the imposition of tariffs); (3) changes in the assumptions underlying our financial estimates; (4) the outcome of any known and/or unknown legal or regulatory proceedings; and (5) other risks and uncertainties set forth in Payoneer's Annual Report on Form 10-K for the period ended December 31, 2024 and future reports that Payoneer may file with the SEC from time to time. Nothing in this press release should be regarded as a representation by any person that the forward-looking statements set forth herein will be achieved or that any of the contemplated results of such forward-looking statements will be achieved. You should not place undue reliance on forward-looking statements, which speak only as of the date they are made. Payoneer does not undertake any duty to update these forward-looking statements.
